## Summary

I'm a passionate **Full Stack Developer** with hands-on experience building secure, scalable, and user-friendly web applications. From crafting **responsive interfaces with React and TypeScript** to **building RESTful APIs using Node.js, Express, and SQL**, I enjoy working across the stack to bring ideas to life. Over the past year, I've built and deployed full-stack projects that solve real-world problems—featuring authentication, role-based access, real-time communication, and more. With **5+ years of customer service experience**, I bring **strong communication skills, empathy, and a user-first mindset to every team I join**. Currently completing my **B.S. in Computer Science** (expected May 2025) and seeking a **frontend, backend, or full stack developer role** where I can contribute from day one, keep learning, and grow with a collaborative team. Check out my Portfolio: [uyenvu078.github.io/Portfolio-UyenVu](https://uyenvu078.github.io/Portfolio-UyenVu)

## Technical Skills

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, C (basic), C++ (basic), C# (basic)

**Frontend:** React, Next.js, Bootstrap, Responsive Design, React Query

**Backend:** Node.js, Express, REST APIs, GraphQL, WebSockets, .NET

**Databases:** PostgreSQL, MySQL, MongoDB

**Dev Tools:** Git, GitHub, VS Code, Postman, Netlify, Render

**Practices:** Agile Development, Unit Testing, Debugging, UI/UX Principles, CI/CD (basic)

## Projects

*React, Node.js, MongoDB*

**ZenTasker – Task Manager** ([Live](#)) [Code](#)

- Designed a **drag-and-drop task app with role-based access and real-time sync**.
- Practiced Agile development and documented the system architecture and API usage.
- Delivered a secure and responsive SPA using modern design patterns.

*React, Node.js, SQL*

**BEAUShop – E-Commerce Platform** ([Live](#)) [Code](#)

- Built **product catalog, user authentication, and checkout systems with RESTful APIs**.
- Wrote SQL queries and developed backend logic using structured programming principles.
- Focused on scalability, modularity, and responsive UI development.

*React, WebSockets, MongoDB*

**ChatterBox – Real-Time Chat App** ([Live](#)) [Code](#)

- Developed **real-time messaging platform with persistent user data and session control**.
- Implemented event-driven architecture using Socket.io and MongoDB.
- Created responsive and accessible front-end aligned with UX best practices.

## Experience

*Customer Service Professional*

**Various Employers**

2018–2025

- Delivered customer solutions with a 95%+ satisfaction rate in fast-paced environments.
- Gathered feedback and communicated technical information clearly across departments.
- Managed multi-tasking and team collaboration under pressure.

## Education

**University of Houston**

*B.S. in Computer Science*

May 2025 (*Expected*)

Minor: Business Administration

Relevant Coursework: Programming in C, Data Structures, Operating Systems, Software Engineering, Human-Computer Interaction

## Additional

**Languages:** English (Fluent), Vietnamese (Native)

**Soft Skills:** Adaptability, Problem Solving, Communication, Continuous Learning, Team Collaboration
